Subject: RE: Hickman Tonopah Update and Next Steps
[2017-02-07 Hickman status update.docx](#)

Attached below is an update of some of the more recent, relevant information regarding Hickmans' AZ facilities- it is obviously not a full accounting of all the ongoing issues and moving parts, but hopefully help in our discussion on next steps. I think most of us on this email can skip past what I have included on the first page.

To start off with, I thought we could focus on our 3 immediate issues, although we're certainly free to discuss other concerns as well:

- 1) DWAZ's assertion of ammonia releases above CERCLA RQs
- 2) Tonopah facility fugitive/non fugitive determination forthcoming from Maricopa AQD
- 3) Ak Chin facility permitting status
